Call for Papers

Contributed Papers: Accepted and presented papers will be indexed by EI, Thomson Reuters Conference Proceedings Citation Index (ISI Proceedings) and Sciverse Scopus, and included in IEEE Xplore. As the conference is the flagship of the IEEE/ASME Transactions on Mechatronics, high quality selected papers will be considered for publication in a focused issue in the Transactions.

Best Paper Awards: All submitted papers will be evaluated for the Best Conference Paper Award, and Best Student Paper Award. For the first time, all the papers will be considered for ASME- DSCD Mechatronics Best Paper Awards.

Tutorials & Workshops: Proposals for half day or full day tutorials and workshops addressing new topics in intelligent mechatronics are invited for submission to the T/W Chairs. Proposals must include (1) statement of objectives, (2) intended audiences, (3) list of speakers, and (4) list of topics.

Organized Sessions: Organized session proposers should submit to the Organized Session Chairs a brief statement of purpose for the session as well as the abstract of the papers to be included. A typical organized session consists of 4 to 5 related papers.

Social Programs: A number of social events will be prepared for the conference delegates. Spouses programs and post-conference tours to the surrounding region can be arranged through conference event organizer upon request. Details of the social programs will be posted on the conference website.

Venue: AIM 2013 will be held in Novotel on the beautiful Northbeach of Wollongong. It is a 4½ star luxury hotel located on the beach and is within easy walking distance of the city centre, shopping malls, cinemas, restaurants, sporting grounds and tourist attractions of the Illawarra region. Wollongong, which is known as the City of Innovation, is located 80 km south of Sydney and is the gateway to the spectacular South Coast region. Wollongong is New South Wales’ third largest city and boasts a wide range of accommodation, excellent transport and delegates with a range of leisure activities to experience outside of the conference. Wollongong experiences year round temperate climate. For further information on the venue, please refer to http://www.visitwollongong.com.au.
